- Empathy
- Good communication
- Flexible
- Patience
- Adaptability
- Prioritization
- Teamwork
- Problem Solving

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

Batangas State University–Lipa Campus
2021 – Present

System Technology Institute-Lipa Campus
2020-2021

SENIOR HIGH SCHOOL
Lipa City Colleges
2017 – 2019

PROFESSIONAL PROFILE

Aspiring web developer and IT student with hands-on experience in designing and developing web-based systems using modern web technologies. Demonstrates strong problem-solving skills, attention to detail, and the ability to learn quickly. Experienced in building full-stack applications as a capstone project, including system design, RESTful API development, database integration, and user interface implementation. Highly motivated to gain industry experience through an OJT/internship and continuously improve technical and professional skills.

PROJECTS

Web-Based Booking and Notification System for Rosario Resort and Hotel
ROSARIO RESORT AND HOTEL | Rosario Batangas
Tech Stack: MySQL, Express.js, Node.js, React.js

- Designed the overall system architecture and application structure
- Selected and implemented the full technology stack based on system requirements
- Developed RESTful APIs using Express.js and Node.js for booking, user authentication, and data management
- Integrated APIs with a MySQL database for storing and retrieving reservation and user data
- Developed user authentication features, including secure login functionality
- Implemented CAPTCHA to enhance system security and prevent automated access
- Designed and built the complete user interface using React
- Created a responsive and user-friendly booking workflow for resort guests

Personal Web Portfolio
Link: https://christianjay-portfolio.netlify.app/
Tech Stack: HTML, CSS, JavaScript

- Designed and developed a personal portfolio website to showcase projects and technical skills
- Built responsive layouts using HTML and CSS for desktop and mobile devices
- Implemented interactive features using JavaScript
- Deployed the website using Netlify
